A Stormy weather

The **Izzy Jacket** is a multi-functional windbreaker jacket, inspired by our outdoor expertise and designed to adapt to any new adventure.

Versatile and performance-driven, this jacket is made with a lightweight durable single-layer ripstop and a hidden zipper to remove the bottom section for a 2-in-1 windbreaker that you can wear as a short jacket or a long parka, depending on the environment you're moving through. Eco-designed with recycled polyester and a PFC-free durable water repellent treatment, it also features an ergonomic hood with an elastic adjustment system and an integrated brim, an elastic waist hem and wrist cuffs, and reflective detailing for full protection and safety while playing in the wildest environments. Featuring the Geology print from our new collection, designers drew their inspiration from the mountain topography in our very own backyard, the French Alps.

Don't think twice, with this do-it-all 2-in-1 jacket, you can stroll around town or ramble through the wildest environments anywhere, anytime.

**FEATURES** : 3-layer jacket bonded with 10D tricot - Fully-taped seams - Ergonomic hood with single-point adjustment system - Brim hood - Waterproof YKK® front zip - Side pockets with waterproof zip - Sleeve cuff adjustment with hook and loop - Bottom hem adjustment system - Back print

Our **Hals Jacket** is a 3-layer shell to use all year round: lightweight and breathable enough for summertime, while tough enough and waterproof for any outdoor adventure in colder weather.

It features Picture's exclusive 20K/20K waterproof-breathable Dryplay Membrane reinforced by a Teflon EcoElite™ PFC-free durable water repellent treatment. Eco-engineered with circular polyester and recycled polyester, it also has fully-taped seams, an ergonomic hood with a single-point adjustment system and an integrated brim, as well as reflective detailing for full protection while playing in the wildest environments. The articulated design offers a great fit as well as unparalleled freedom of movement. This lightweight technical jacket comes equipped with pit zips for temperature control and a chin protection lining for extra comfort. We also added two side pockets with zips to carry small valuables or simply keep your hands warm.

Picture offers this outdoor essential in a modern yet unconventional design.

**Aktiva shorts** belong to our line of high performance eco-designed products for more strenuous activities.

Durable and versatile, these shorts are made with technical fabrics to follow you everywhere outdoors, whether playing in the mountains, by the sea, or anywhere in between. We designed these tech shorts with body-mapping construction and a laser-cut finish at the hem. While the 3-material mix offers high durability for the most active hikes, with abrasion-resistant Cordura® panels placed strategically at the waist and back, the Eicoprene stretch panels on the side provide unparalleled freedom of movement. In addition to this smart design, these shorts include our Dry Now technology to quickly wick away moisture and our Dry Feel treatment to keep you fresh for as long as possible. They also feature two zippered side pockets to carry small essentials, and a zippered gusseted lycra front closure.

Start your day right with a mountain run, go for an afternoon dive, and then meet your friends in the evening: you'll do everything with these tough, do-it-all shorts.

# MTB

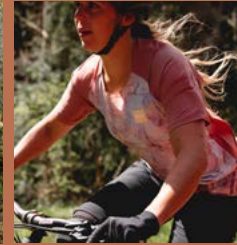

From skiing to snowboarding to surfing, the idea of making your own mark or drawing your own line has always been the credo of Picture. After fifteen years of R&D and innovations in the technical textile sector, the idea of extending our expertise to the world of mountain biking appeared as an obvious, logical continuation of what we had initiated. A new offer adapted to our community and its practices to continue to -Ride, Protect & Share- all the year long.

Picture's technical chamois: developed and tested by bike experts who worked with us to carefully select high-performance fabrics and technical foam, while making zero compromise on sustainability.

Incorporating eco-friendly materials for the pad face fabric, the foam, and the inner short fabric, as well as Marnets® extremely lightweight and highly breathable recycled eco-fabric, these shorts also feature chafe-free flatlock stitching for enhanced comfort and performance. Using TM Smooth® chamois Technology, the Cellpur foam® padding has multiple foam layers of different densities for a high level of comfort in the saddle and is also perforated for greater breathability. While the elastic waistband has a silicone-backed grip to hold the inner shorts in place, we added snaps at the waist to connect to your Picture bike pants or shorts.

Fast-drying, performance-driven, and eco-friendly, your next chamois is here for the long haul.

# PICTURE'S CHAMOIS : MULTI DENSITY PAD FOR THE BEST COMFORT

## TMIRROR

Teosport Mirror is a cycling pad with a smooth top surface. Inverting the supportive layers creates a super flat top surface, that is extremely comfortable next to the skin.

## FABRIC

Marnets is a new polyester thread that can boast the same quality as the virgin polyester and used for high quality eco-sustainable fabrics. It's obtained by a sophisticated and complex recycling process of the recovered fishing nets, together with other materials.

## FOAM

cellpur® is a green foam. This particular type of foam contains Tencel®, an essential natural components derivation that makes the foam high performing and eco-friendly.

## HT90

A y-shaped moulded chamois which incorporates wings set at 90 degrees. High Technology 90 uses revolutionary seamless technology so this pad conforms closely to the body and follows all movements perfectly. HT90 technology reduces friction, redness and discomfort in the inguinal area during pedalling.

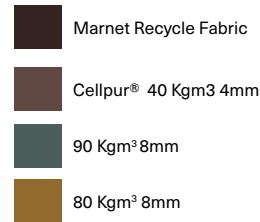

## FOAM DENSITY M2

- Elasticity: very good
- Transpiration: excellent breathability thanks to the open cell structure
- Support: Very good, it is able to guarantee an excellent foam / cyclist weight ratio
- Density: 90 kg / m<sup>3</sup>
- Holes: For more breathability you can also have the perforated foam version, without forgetting that perforation reduce a percentage of foam density

# BAGS & LUGGAGE

Since every journey has its own story, we like to create bags & luggage for those who seek true adventure.

Our bags offer streamlined and versatile storage options for skiing, hiking, camping, train travel, bike trips, and even urban escapes. All the more reason to enjoy the unexpected! Every bag from our product line uses recycled polyester and recycled buckles made in socially-responsible factories. And of course, we take care to make long-lasting and durable, too: the entire line is covered by our lifetime repair warranty program.

## SUSTAINABILITY

## DURABILITY

100% of the bag range is covered by the Lifetime Repair Warranty which cover:

Zips

Buckles

Seams\*

\* Conditions apply

Webbing

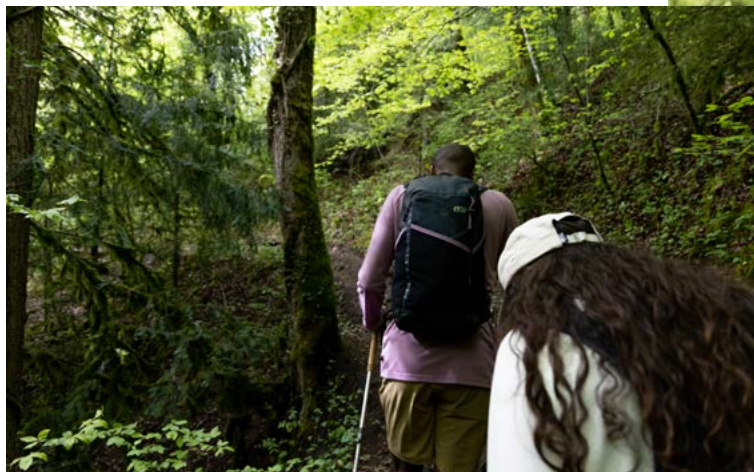

## UPCYCLING

If for some reason you end up wearing your backpack out, give it a second life by cutting "along the dotted line" to transform your pack into separate accessories. - Upcycling is one initiative among others leading the brand down the path to circularity.

-Even our toughest backpacks won't last forever: from the very beginning we thought of the end of the product lifecycle.

-For all backpacks in the collection.

# SURF

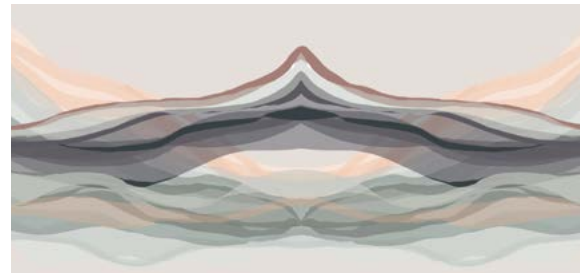

Since materials play a big role in a product's lifecycle, Picture's wetsuits, boardshorts, and swimwear opt for sustainable, eco-friendly alternatives whenever possible. Regen®'s recycled nylon for swimsuits, Repreve® for boardshorts, and Oyster shell Eicoprene for wetsuits. Never-ending sustainable innovation.

# BOARDSHORT

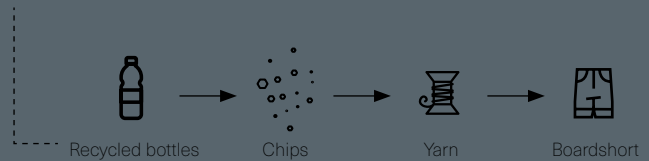

Must-have performance-driven boardshorts with our summer prints: washed vintage-looking fabrics, or bold colors. We designed this collection of hybrid boardshorts for those who are super active in the water, the great outdoors, or the city. There is something for everyone: 19" or 15", flat waistband or volley-cut boardshorts. For sun-protection, we also offer classic surf tees with a modern look.

# ACCESSORIES

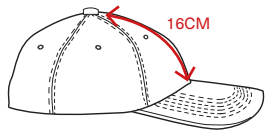

To complete your look and make life as easy as possible wherever you go, our design team developed a full range of eco-friendly accessories to match our Streetwear, Activewear, and Surf collections, bringing style and function to all your wilderness and urban adventures!

# 3 PROFILES IN RANGE

## LOW PROFILE CAP

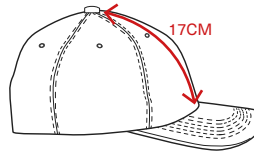

Also known as the dad cap fit, our low profile provides a tight fit, with a shallow volume. It is the perfect choice for those who like a cap that sits above the ears.

SEAM BETWEEN VISOR AND TOP : 16CM

## MID PROFILE CAP

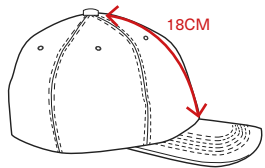

Not too small, not too roomy, our mid profile stands perfectly in between a low and a high profile. It provides a little space between your head and the top of the cap.

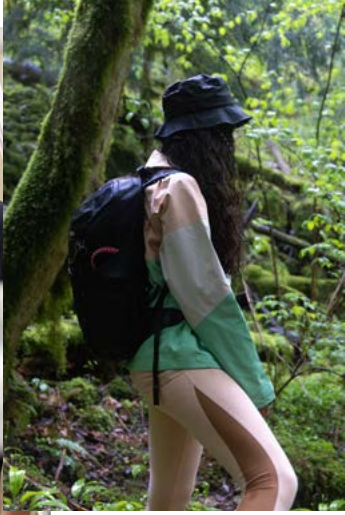

SEAM BETWEEN VISOR AND TOP : 17CM

## HIGH PROFILE CAP

Picture historic fit. Very roomy, perfect for those who are used to large hat size.

SEAM BETWEEN VISOR AND TOP : 18CM

# DRINKWARE

Since drinking water and plastic do not mix so well together, we have expanded our drinkware range. From insulated cups and tumblers for your morning coffee by the campfire, to leak-proof bottles for your strenuous hikes, by way of new insulated small-mouth options for commuting, we've got every size and volume you could possibly imagine. Did we mention that they are super stylish as well?

# TECH INDEX

## CORDURA®:

Cordura® fabric is a collection of fabrics qualified by INVISTA for use in a wide array of products from luggage and backpacks to boots, military wear and performance apparel.

## DRY NOW:

High-performance technology using a recycled polyester blend of hydrophilic and hydrophobic fibers that wicks moisture away

## DRYPLAY:

This polyurethane (pu) blend laminate membrane is waterproof, windproof, and breathable. Extremely durable, it keeps the user dry in all weather conditions. Laboratory and field tested.

## DRY FEEL:

Our new antimicrobial and anti-odor treatment that keeps your base layers as fresh as it was new for more active days. It also means less frequent washing and longer lasting clothes!

## EICOPRENE:

Eicoprene is a foam material that has the same technical features and profile as conventional neoprene. However, there is nothing conventional about the origins of this new material. Whereas neoprene is petroleum-based, Eicoprene is made from a mix of limestone, SS22 novelty oyster shell powder and recycled tires.

## FAST DRY 4D RECYCLED STRETCH:

made of recycled polyester and elastane, this fabric features a unique hydrophobic construction for maximum stretch and fast drying properties.

## FLEXSKIN:

Flexskin is an eco-friendly and extremely stretch neoprene that allows full freedom of movement while surfing. It provides both comfort and resistance but is also highly flexible around the arms, shoulders and upper-body. Flexskin merges naturally with your body during your ocean adventures. It provides a true second skin effect!

## MIPAN REGEN

MIPAN regen is a reclaimed nylon yarn made by recycling pre-consumer waste. It possesses excellent dyeing uniformity and is Chlorine & sunscreen damages resistant as well as UPF50+ maximum UV protection.

## POLARTEC® POWER STRETCH®:

Made with 84% recycled fibers and developed to expand our base fabric's durability and range of motion. By using elastic fibers with enhanced resilience in our stretch construction, we made a performance-fit base fabric that can handle the demands of intense physical activity. It also keeps you dry when you sweat and provides warmth.

## PRIMALOFT:

The world's best synthetic insulation alternative. Primaloft® insulation is soft, water resistant, warm without bulk, breathable, lightweight, and packable. At Picture we use PrimaLoft® insulation ECO with 60% post-consumer recycled

## REPREVE

is the leading, most trusted, branded performance fiber made from recycled plastic bottles. The process embeds properties like wicking, adaptive warming and cooling, water repellency, and more at the fiber level.

## THERMAL STD:

Made with thin recycled polyester fibers, our Thermal Std insulation provides warmth similar to down, but retains heat more effectively when it gets wet. It is lightweight and dries quickly. The heavier the weight in grams, the warmer the insulation.

## TEFLON ECOELITE:

PFC-Free durable water repellent treatment using renewably sourced Teflon EcoElite™ Technology. Zero pollution, zero allergies, zero impact on future generations. Guaranteed 90% efficiency after 10 washes.

## An incomparable natural feel

Tencel fibers are known for their natural comfort and environmentally-friendly production process, as well as for their moisture management and being gentle to the skin.

## Sustainable production

Environmentally responsible closed loop production process, transforms wood pulp into cellulosic fibers with high resource efficiency and low ecological impact.

## Feels right features

### Color retention

Dope-dyed fiber: long-lasting color vibrancy more than conventionally dyed fiber, and less prone to fade.

### Enhanced breathability

The microscopic fibrils of cellulosic fibers are structured to regulate the absorption and release of moisture.

### Feels cool and dry

Absorbs moisture more efficiently than cotton, keeping your skin feeling pleasantly cool and dry.

### Long-lasting softness

Offer textiles a long-lasting quality of exquisite softness.

### Strength

Greater strength among cellulose fibers.

## AVITERA SE

Dyeing organic cotton with Avitera SE dyes leads to

- Environment benefits: water and energy savings (50%), Reduced CO2 emission (50%)
- Consumer benefits: helps colors stay bright and dark shade stay dark , substrates dyed with AVITERA® show no trace of PCA (Para-Chloro Aniline)

## BLUESIGN APPROVED FABRIC

Bluesign technologies works at each step in the textile supply chain to approve chemicals, processes, materials and products that are safe for the environment, safe for workers, and safe for the end customer.

## ECO VERO™

Derived from certified renewable wood sources using an eco-responsible production process by meeting high environmental standards, LENZING™ ECOVERO™ fibers tailor to a sustainable lifestyle, contributing to a cleaner environment.

LENZING™ ECOVERO™ Viscose fibers key facts : Sustainable wood sourcing / Awarded EU Ecolabel / Lower emissions / Supply chain transparency

## OEKO-TEX STANDARD 100

If a textile article carries the STANDARD 100 label, you can be certain that every component of this article (every thread, button and other accessories) has been tested for harmful substances and that the article therefore is harmless for human health.

## GLOBAL RECYCLED STANDARD

The Global Recycled Standard provides verification of recycled materials, and then tracks the materials throughout the entire supply chain and to the finished product. It includes additional social, environmental, and chemical processing requirements.

## TEFLON ECOELITE™ / PFC FREE DURABLE WATER REPELLENT TREATMENT

Teflon EcoElite™ is a renewably sourced, non-fluorinated (PFC-free) fabric treatment for durable water repellency and is manufactured with 60% renewably sourced raw materials.

# SUSTAINABLE FABRICS AND PROCESSES

## RECYCLED POLYESTER :

Recycled polyester has much lower impacts than virgin polyester: it requires 6 times less oil and emits 2.5 times less greenhouse gases than conventional polyester.
