RIDE, PROTECT & SHARE

these three words represent the essence of who we are: a snowboard, ski, surf, and outdoor clothing brand who, while not taking ourselves too seriously, still want to effect change.

Do you know what's behind Picture?

- Sustainable materials
- Using business as a force for good
- Climate & carbon strategy
- Fair and ethical production
- Packaging policy to eliminate polybags

Certified B Corporation

PICTURE SUSTAINABILITY JOURNEY

From recycled outerwear, organic streetwear or biosourced shells, Picture is known to have a never-ending sustainable product innovation policy.
But not only.
Other processes such as upcycling, waste prevention campaigns, phasing out PFCs or renting service & lifetime repair warranty are amongst other initiatives that lead the brand's way to sustainability.

THE PICTURE MUSEUM

From day one and as an unconventional outdoor brand, we've always had the desire to surprise and impress with a brand DNA that is creative, artistic and offbeat. Each season, we strive to create innovative campaigns to bring our products to life through original universes, always with the objective of telling great stories.

This season, to highlight our new collection, we are returning to our first love and one of the pillars of the brand: the world of architecture, through «The Picture Museum».

How? By imagining a universe shaped by unusual structures, in which everything is allowed: mixtures of forms, codes and architectural styles; and ever more exuberant materials.

In this museum conceptualised by our imagination, nothing is left to chance and every detail is important. The objective? To destabilise, to impress, to stimulate the imagination and to leave a mark on the mind; all the while making our vision evolve, always in search of the new and the extraordinary.

DESIGN INSPIRATIONS WOMEN

Shadow Gray
Dark Blue
Ice Melt
Freeze

CRYSTAL

With its icy-blue tone, this color story is inspired by the pure ice-covered landscape in Greenland, while the print is inspired by the island's vast expanses of crystalline water.

Shadow
Tannin
Cream
Black
Baroque

BAROQUE

This color story is inspired by Baroque architecture, where curves take center stage. The shades of green and the lighter golden colors offer a soft, elegant touch.

Black
Tangerine
Cashmere Rose
Latte

NOSTALGIC RAINBOW

This color story takes us back to the utopian and fantastical atmosphere of winter sports in the 70s. Bright and energetic colors such as pink and orange recreate the unique world of the seventies.

Light Milk
Dark Blue
Autumn Blaze
Camel
Desert Sage
Patchwork

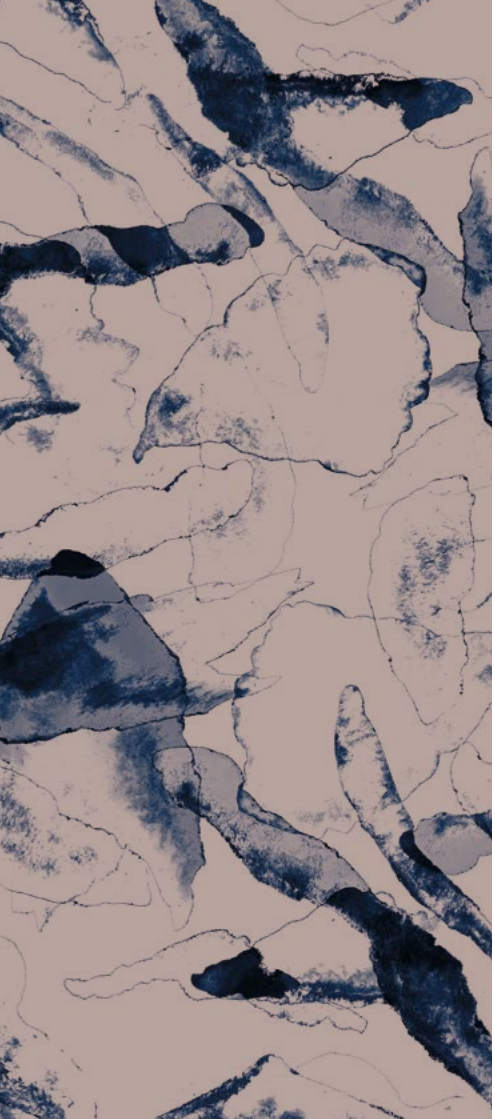
ROMANTIC PATCHWORK

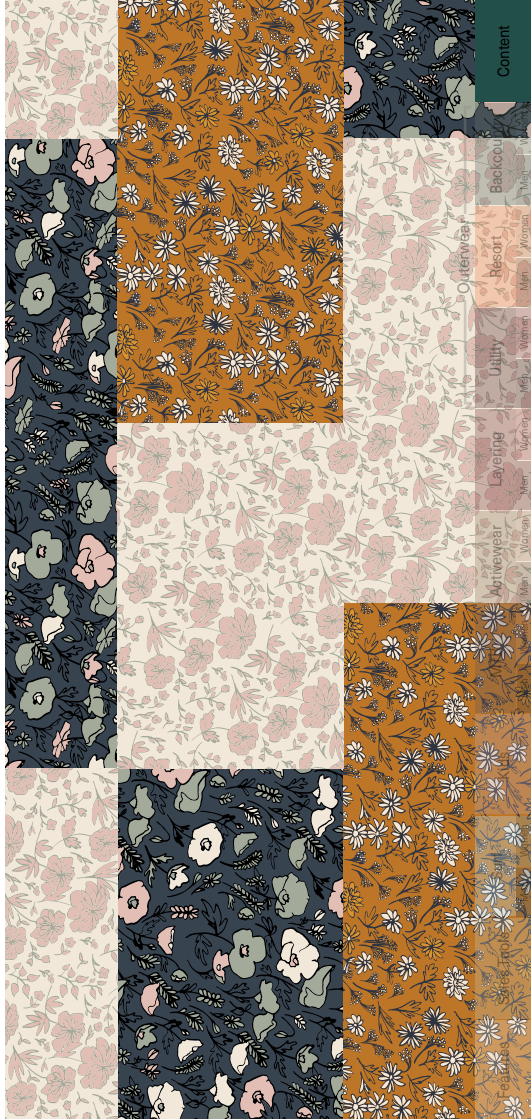
Romanticism inspired this color story. The patchwork print combines natural hues and shades of pastel with stronger colors and a golden brown.

Mocha
Rose Dust
Sea Fog
Black

DUNE (UTILITY)

This color story is inspired by sandy desert landscapes and pinkish dunes. The poetic atmosphere triggers a desire to escape.





DESIGN INSPIRATIONS MEN

Tannin
Spectra Green
Black
Raven Grey

AURORA BOREAL

This color story elicits images of the polar sky in countries above the Arctic Circle by alluding to the aurora borealis, the atmospheric phenomenon also referred to as the Northern Lights. The dominant color during these nocturnal luminous episodes is a bright and intense fluorescent green. This phenomenon forms at high altitude and reminds us of playing in the high mountains.

Laurel Wreath
Shadow
Autum Blaze
Dark Blue
Raven Grey

FOREST ROAD

Inspired by the change of seasons from autumn to winter, this color story uses a changing color palette composed of the greens and browns that transform into colors that freeze in the cold.

Plume Truffe
Wood Thrush
Harbor Grey
Black

NATIONAL PARK (UTILITY)

Nature can be incredibly comforting and healing. We all feel better when. We spend some time outside,brown is a color that we see practically every day. The color can be seen in wood, mud, and furnishings, among other things. The color is lovely, and it imparts a natural warmth as well as a feeling of Aesthetic beauty.

Andorra
Maho
Tannin
Allure Blue
Black
Raven Grey

NATURE IN COLORS

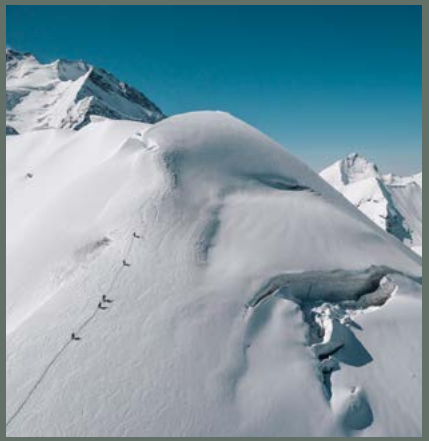
Imagine a winter sunrise in the northern hemisphere; the color palette is full of blazing pinks and reds. The cold, pastel blue contrasts with and cools down this very earthy, clay-like palette.

Latte
Autum Blaze
Camel
Dark Blue
Laurel Wreath

NEUTRAL & NATURAL

Natural wood grain, different types of dry wood after cutting, and terracotta provided inspiration for this color story. Often found indoors, these colors are easy and comfortable to live with, and offer a feel warm and cozy feel.

BACKCOUNTRY TOURING



Picture's new Backcountry Touring range brings together everything that defines who we are: venturing out of bounds, riding new lines with friends, exploring the great outdoors, and promoting sustainable solutions for everyday life. To explore the backcountry in search of fresh powder and to push your limits, take advantage of our full range of jackets and pants that feature our most advanced technologies.

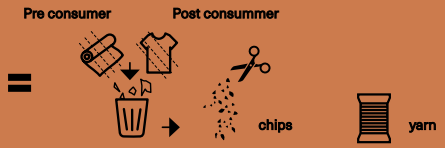
RESORT

For our extended family! Our Resort range covers the way we like to ride, as well as our favorite styles and technologies (and budget😉). This now streamlined range includes our iconic pieces, our best sellers, and our always-bold prints & colors. It goes without saying that sustainability is always on our mind, so this season (like every season) we continue to reduce our overall impact through environmentally-friendly and ethically-sourced materials, as well as energy saving solutions during production.

SUSTAINABILITY

THE CIRCULAR_



Nothing is lost, Nothing is created, Everything is transformed.

PERFORMANCE

Engineered lining:
- Thermal dry System

UTILITY

(noun) /'ju:sf(u)lnes/ : ability to satisfy a particular need, to be useful.

Sometimes one word just captures the true essence of it all. We chose UTILITY as the name for our new technical range for this very reason. We designed this entire line of high-performance, Circular polyester, no-frills, sleek technical apparel with only the features that you absolutely need. This monochrome range for men and women pushes Picture's commitment to the steep lines (and to the environment of course) one step further.

SUSTAINABILITY

LAYERING

Regulate temperature and comfort by slipping layers on and off based on the intensity of your adventure and the changing weather. Picture offers an always-evolving range of base and mid layers to help you to customize your ideal setup.

SUSTAINABILITY

THE CIRCULAR_ + RECYCLED POLYESTER + Global Recycled Standard

+ PFC FREE
DURABLE WATER REPELLENT TREATMENT USING RENEWABLY SOURCED Teflon EcoElite™ TECHNOLOGY

Already heard about PFC?

PFC traces were fond in rivers, glaciers and nearby production factories.

PFC are used to make products water repellent

PFC can generate health problems for humans & animals

PFC are banned from our entire outerwear production

NOCTURNE

Nocturne selects past colours, which fade with time, a vaporous effect with soft colours. Colours that appeal to our imagination and dreams. Deep water expresses the elegance, simplicity ans mystery of the ocean dephts.

Deep Water
Tannin
Cement
Spice Orange
Black
Dark Earthly

ABYSSAL

The ABYSSAL color story expresses the elegance, simplicity and mystery of the ocean depths through the Deep Water color. It is highlighted with natural, rocky colors and an energetic touch with Spicy Orange.

Packable and versatile, the **Abstral Jacket** is the do-it-all high-performance jacket for any outdoor adventure.

This 2.5-layer stretch shell features a 10K/10K waterproof-breathable membrane. Eco-designed with recycled polyester, circular polyester, and a PFC-free durable water repellent treatment, it also features fully taped seams, an integrated brim, and reflective detailing for full protection and safety while playing in the wildest environments. Its stretch fabric, elasticated brim, and adjustable wrist cuffs and hem offer a great fit as well as incredible freedom of movement. And when you no longer need protection from the elements, this lightweight technical jacket stuffs into its own pocket for efficient, space-saving packability.

So, pack it up!

MEMBRANE & DWR : Dryplay 10K/10K membrane - Teflon Ecoelite™ PFC free durable water repellent treatment

FEATURES : Ergonomic high-waist - Dry Feel antimicrobial treatment - Dry Now wicking technology - Body-mapping construction - Breathable mesh panels on the sides

Cintra technical leggings belong to our range of high-performance eco-designed leggings for physically demanding sports.

We used body-mapping construction, strategically placing multidirectional stretch fabric and breathable mesh panels along the sides to ensure maximum performance. These leggings feature our Dry Now technology to quickly wick moisture away, and our Dry Feel antimicrobial treatment to stay fresh. They also feature incredibly comfortable flatlock seams and a bonded high waistband for maximum support.

With these extremely stylish high-performance leggings, you'll be ready for anything: from a run outside to a recovery stretch.

DRY PLAY 20K/20K

THE CIRCULAR_

M

A Cement

Our **Hals Jacket** is a 3-layer shell to use all year round: lightweight and breathable enough for summertime, while tough enough and waterproof for any outdoor adventure in colder weather.

It features Picture's exclusive 20K/20K waterproof-breathable Dryplay Membrane reinforced by a Teflon EcoElite™ PFC-free durable water repellent treatment. Eco-engineered with circular polyester and recycled polyester, it also has fully-taped seams, an ergonomic hood with a single-point adjustment system and an integrated brim, as well as reflective detailing for full protection while playing in the wildest environments. The articulated design offers a great fit as well as unparalleled freedom of movement. This lightweight technical jacket comes equipped with pit zips for temperature control and a chin protection lining for extra comfort. We also added two side pockets with zips to carry small valuables or simply keep your hands warm.

Picture offers this outdoor essential in a modern yet unconventional design.

MTB

From skiing to snowboarding to surfing, the idea of making your own mark or drawing your own line has always been the credo of Picture. After fifteen years of R&D and innovations in the technical textile sector, the idea of extending our expertise to the world of mountain biking appeared as an obvious, logical continuation of what we had initiated. A new offer adapted to our community and its practices to continue to -Ride, Protect & Share- all the year long.

SUSTAINABILITY

FEATURES : Fully-taped seams - Ergonomic construction at elbow and back hem - Adjustable ergonomic helmet-compatible hood - Brim hood - Waterproof YKK® front zip - Side pockets with zip - Chest pocket with zip under flap - Goggle cleaner inside the chest pocket - Picture laser-cut holes under arms for high breathability - Bottom hem adjustment system - Elastic cuffs - Reflective details- 279g

The **Granity jacket** is the ultimate riding partner in our new MTB line.

This mountain bike jacket offers maximum freedom of movement and ventilation. The 2.5-layer stretch shell features a 10K/10K waterproof-breathable membrane. Eco-designed with recycled polyester, circular polyester, and a PFC-free durable water repellent treatment, it also features fully-taped seams, an ergonomic hood with an integrated brim, and reflective detailing for full protection and safety while riding hard in the dirt whatever the conditions.

Designed for mountain biking; made for drawing your own line.

CF

Picture's mountain bike pants are cleverly designed, featuring an ergonomic tapered leg fit for pedaling and enough space for knee pads.

For unrestricted movement and functionality, we added a high-back waist, as well as large and secure pockets. Made from a high-performance fabric with perforated details to enhanced breathability, it features an elastic waistband with an integrated buckle closure system, and elastic loops to connect to Picture's inner shorts.

DRY FEEL

A Light Earthly MCF

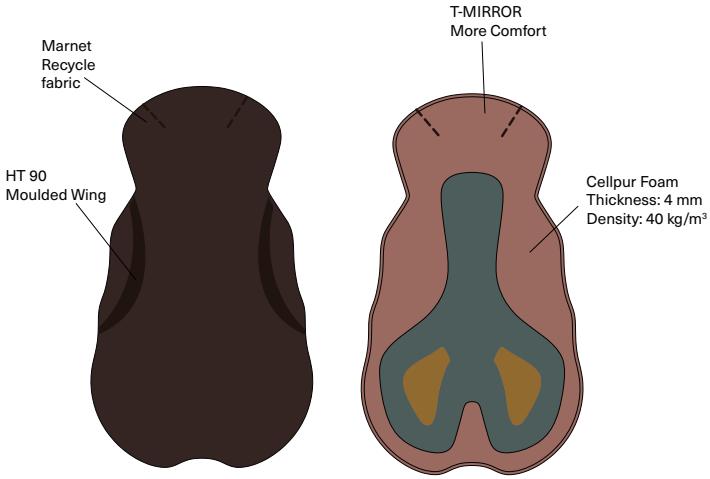
FEATURES : Functionnal chamois - Specifically shaped for male anatomy - Elastic waistband with silicon - Dry Now wicking technology - Cellpur foam® - Foam thickness : 8mm and 4mm (sides) - Foam density : 90 kg/m3 back, 80 kg/m3 front, 40kg/m3 sides - Y-shaped moulded chamois with HT90® Seamless Technology - TM Smooth® chamois Technology - Marnets® recycled eco-fabric - Snaps at waist for pants/shorts connection

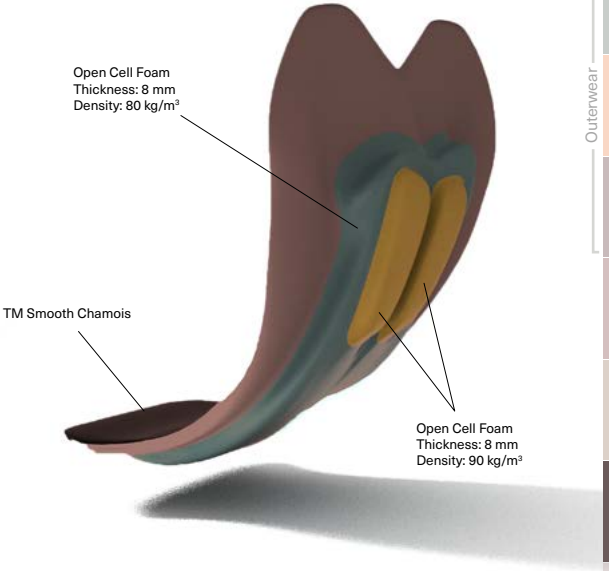
Picture's technical chamois:

Developed and tested by bike experts who worked with us to carefully select high-performance fabrics and technical foam, while making zero compromise on sustainability.

Incorporating eco-friendly materials for the pad face fabric, the foam, and the inner short fabric, as well as Marnets® extremely lightweight and highly breathable recycled eco-fabric, these shorts also feature chafe-free flatlock stitching for enhanced comfort and performance. Using TM Smooth® chamois Technology, the Cellpur foam® padding has multiple foam layers of different densities for a high level of comfort in the saddle and is also perforated for greater breathability. While the elastic waistband has a silicone-backed grip to hold the inner shorts in place, we added snaps at the waist to connect to your Picture bike pants or shorts.
Fast-drying, performance-driven, and eco-friendly, your next chamois is here for the long haul.

PICTURE'S CHAMOIS : MULTI DENSITY PAD FOR THE BEST COMFORT





TMIRROR
Teosport Mirror is a cycling pad with a smooth top surface. Inverting the supportive layers creates a super fiat top surface, that is extremely comfortable next to the skin.

FABRIC
Marnets is a new polyester thread that can boast the same quality as the virgin polyester and used for high quality eco-sustainable fabrics. It's obtained by a sophisticated and complex recycling process of the recovered fishing nets, together with other materials.

FOAM
cellpur® is a green foam. This particular type of foam contains Tencel®, an essential natural components derivation that makes the foam high performing and eco-friendly.

HT90
A y-shaped moulded chamois which incorporates wings set at 90 degrees. High Technology 90 uses revolutionary seamless technology so this pad conforms closely to the body and follows all movements perfectly. HT90 technology reduces friction, redness and discomfort in the inguinal area during pedalling.

FOAM DENSITY M2
- Elasticity: very good
- Transpiration: excellent breathability thanks to the open cell structure
- Support: Very good, it is able to guarantee an excellent foam / cyclist weight ratio
- Density: 90 kg / m3
- Holes: For more breathability you can also have the perforated foam version, without forgetting that perforation reduce a percentage of foam density

FOAM DENSITY M2
- Elasticity: very good
- Transpiration: excellent breathability thanks to the open cell structure
- Support: Very good, it is able to guarantee anexcellent foam / cyclist weight ratio
- Density: 80 kg / m3
- Holes: For more breathability you can also have the perforated foam version, without forgetting that perforation reduce a percentage of foam density

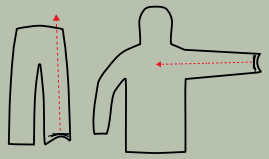
KIDS

I Fit® GROW With Me

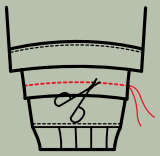
I Fit® system allows jackets and pants to grow along with the youth.



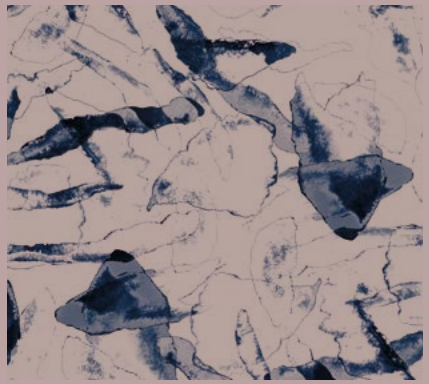
Use the adjuster to extend the size of the sleeves or legs to your kid's height .

GROW With Me

Grow with me system allows jackets and pants to grow along with the youth.



Cut the red thread gently and stretch the sleeve or leg of your product to gain a size.



Kids deserve great technical and sustainable gear, too. Since we know just how important it is to pass down our values to future generations, we continue to expand our full range of baby, toddler, and youth apparel to ensure that they also get to spend amazing moments with us in the mountains.

WETSUIT

Always improving our sustainable engineering, we integrate OYSTER SHELL POWDER as a biosource and renewable solution.
The upgraded Eicoprene technology is featured on 100% of the wetsuits range.

SUSTAINABILITY

100% OF OUR WETSUIT RANGE IS MADE OF WASTE

Polyamide linings made from recycled fishing nets

All carbon black made from recycled tires and oysters powder

Recycled polyester linings made from recycled bottles

TECHNOLOGY

Flex Skin =

- 4 WAY STRETCH
- SECOND SKIN EFFECT
- SUSTAINABLE FABRIC

CLIMATE CONTROL:

To keep you warm, dry, and comfortable, we developed unique, eco-friendly climate control solutions.

Picture's best technologies and features offer warmth, waterproofness, and breathability to help you choose the right gear for your ride.

Waterproofing

Water resistant in light rain and snow	waterproof in light rain and moderate snow	waterproof in moderate rain and snow	Waterproof in heavy rain and wet snow, high pressure	Extreme conditions

WARMTH

PERTEX QUANTUM

PICTURE PARTNERS WITH BEST-IN-CLASS TECH PARTNER TO DEVELOP A HIGH-END INSULATED LAYER RANGE.

PERTEX® QUANTUM USES A TIGHTLY WOVEN STRUCTURE TO PROVIDE A LIGHT AND SOFT FABRIC THAT ALLOWS INSULATION TO FULLY LOFT.
Precisely constructed from incredibly fine yarns, Pertex® Quantum fabrics are designed to trap still air and improve the efficiency of insulation.

LIGHTWEIGHT AND PACKABLE

SOFT TO THE TOUCH

WINDPROOF TO RETAIN WARMTH

The textile industry has become increasingly aware of its sourcing challenges. In particular the use of animal products such as feather and down and, with the development of the Responsible Down Standard (RDS), a leading standard for animal welfare in down and feather products has been created.
The scope of the RDS includes the full down supply chain from the farms and slaughter facilities (animal welfare) to the down processors and garment factories (traceability).

KEY POINTS IN THE RDS
- Protecting animal welfare
- No live-plucking or force-feeding (Any removal of down and feathers from live birds is prohibited; force-feeding is also prohibited.)
- Confident communication (Only products with 100% certified down and feathers may carry the RDS logo.)
- Chain of custody (Certification ensures that the identity of RDS down and feathers is maintained at all times: from the farm to the final product.)

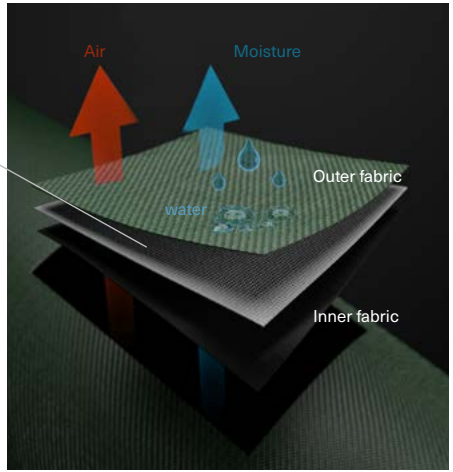
XPORE BY BENQ

IS A GAME CHANGING SUSTAINABLE & HIGH PERFORMANCE NANO-POROUS MEMBRANE.

Taking years of development within the BenQ laboratories, the XPORE membrane is the best eco-friendly alternative to the actual market leaders, while having superior performance indicators.

xpore

Nano-porous membrane
- 10 billion nano-pores per in2
- 20000x tinier than a water droplet
- 200x larger than a water vapor molecule

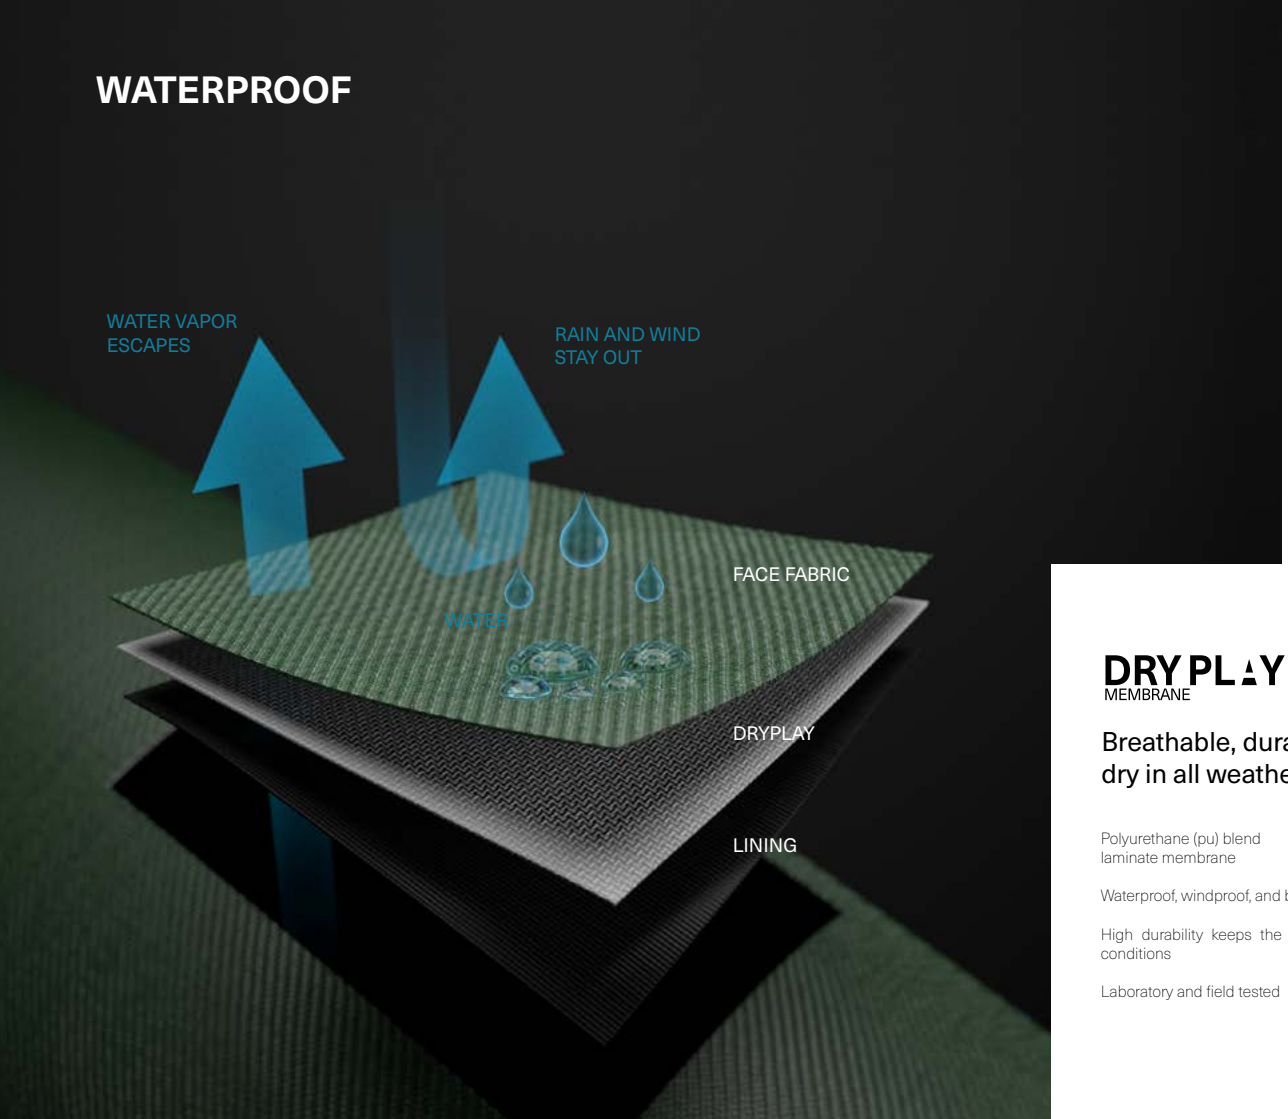


Eco-friendly & non-toxic
Recyclable polyolefin composition, mechanical & chemical free nano porous membrane construction, PFC free and solvent free lamination.

True Breathability & waterproofness
Min. 25K waterproofness & min. 20K breathability

Ultra lightweight
Two times lighter than the competition

WATERPROOF



DRY PLAY MEMBRANE

Breathable, durable, keeps you dry in all weather conditions

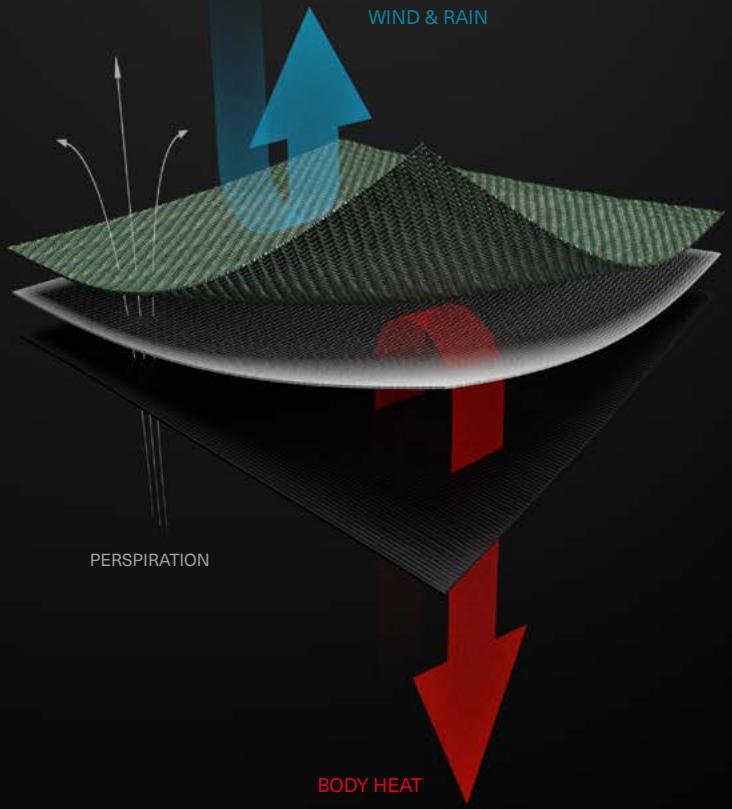
Polyurethane (pu) blend
laminate membrane

Waterproof, windproof, and breathable

High durability keeps the user dry in all weather conditions

Laboratory and field tested

WARMTH TECHNOLOGIES



Layering

Layering is important for managing your climate control in any situation. Regulate temperature and comfort by slipping layers on and off based on the intensity of your effort or as the weather changes. Picture now offers a full range of base layers, mid layers, and outer layers (shells) to help you customize your ideal setup.

RAIN & WIND PROTECTION
- Breathable
- Waterproof
- Windbreaker
- Insulated for extra warmth

3
OUTER LAYER

INSULATION
- Retains heat

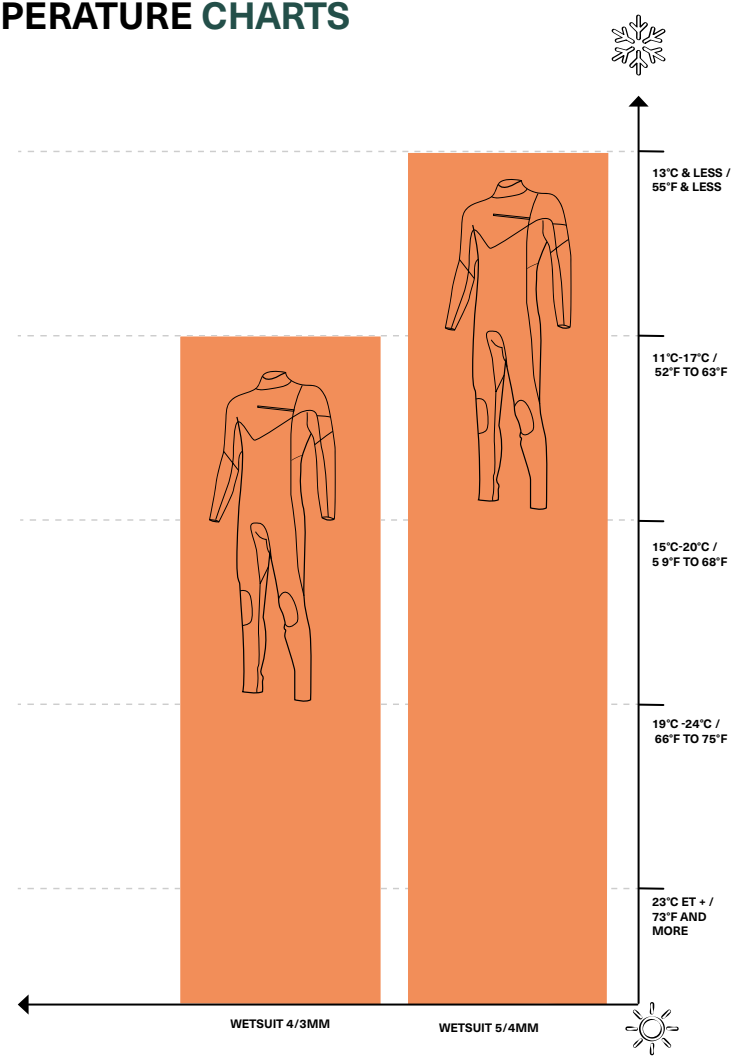
DOME SERIES

Engineered to offer maximum warmth and protection, our DOME series is loaded with our latest technologies.
- DRY NOW LINING
- POWER SEAMS
- HYPER STRETCH KNITS UNDERARM

EQUATION SERIES

COMFORT, STRETCH, AND VERSATILITY IS WHAT OUR EQUATION SERIES IS ALL ABOUT.
- WPF LINING
- FULLY TAPED SEAMS
- FLEXSKIN OFFER



WETSUITS TECHNICAL FEATURES:

		DOMES SERIES	EQUATION SERIES
FABRICS	**ECOPRENE** SUSTAINABLE RESOURCES — Ecoprene is a foam material that has the same technical features and profile as conventional neoprene. Whereas neoprene is petroleum-based, Ecoprene is made from a mix of limestone, SS22 novelty oyster shell powder and recycled tires.Always improving our sustainable engineering, we integrated oyster shell powder as a biosource and renewable solution. The upgraded Ecoprene technology is featured on 100% of the wetsuits range.	✓	✓
	Polyamide linings made from recycled fishing nets	✓	✓
	AQUAα™ eco-friendly water based aquaglue	✓	✓
LININGS	**DRY NOW** A high-performance polyester fabric that wicks moisture away, dries fast, insulates better, and makes the wetsuit lighter when in the water.	✓	
	WPF Built using a 3D-knit construction, the lining provides warmth by trapping air between each loop. Plus, the denser fabric provides extra comfort.		✓
	Std LINING Thermal lining made with recycled polyester to insulate and retain body heat.		
CONSTRUCTION	**GLUED & BLIND-STITCHED SEAMS** The triple-glued and blind-stitched seams, with durable nylon thread, provide ample stretch and are watertight.	✓	✓
	POWER SEAMS Advanced seam sealing for a narrow yet durable, flexible, and watertight finish.	✓* * ONLY ON 4/3 AND BIGGER THICKNESS	
	FULLY TAPED SEAMS for waterproof seal	✓	✓
	CRITICALLY TAPED SEAMS for extra strength on every stress point		
	FLATLOCK SEAMS Regular flat seams that guarantee a soft skin feeling and provides lightness and flexibility.		

		DOMES SERIES	EQUATION SERIES
FEATURES	**Flex Skin** Our most extensible Neoprene in range. It Provides the ultimate level of stretchiness and flexibility to guarantee a true second skin feeling.		✓* * ON SELECTED ITEMS ONLY
	HYPER STRETCH KNIT Located in areas that require maximum stretch for more comfort when paddling.	✓	
	FUSE CUT Fuse-cut finished edges for increased durability.	✓	✓
	DRAIN HOLES To drain water quickly.	✓	✓
	GLIDESKIN NECK SEAL Ultra-smooth lining for more comfort and to keep water from entering.	✓	✓
	COMFORT ZONE Twice as thick to protect your ribs.	✓* * ONLY ON 3/2 AND SELECTED 4/3	✓* * ONLY ON 3/2 AND SELECTED 4/3
	WATERTIGHT SEAL Elastic wrist seals minimize water entry.	✓	✓
	KEY POCKET	✓	✓

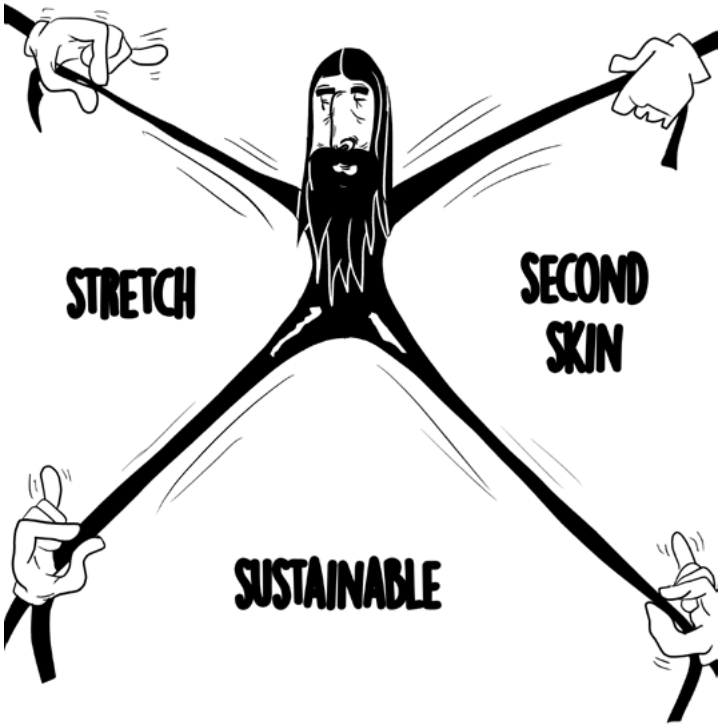
POINTS OF PARITY VS COMPETITORS

- TECHNOLOGIES (STRETCH, LININGS, CONSTRUCTIONS)
- WARMTH
- DURABILITY

POINTS OF DIFFERENCE VS COMPETITORS

- RECYCLED AND BIO-SOURCED MATERIALS ON THE ENTIRE RANGE
- OYSTER SHELL POWDER MATERIAL ON THE ENTIRE RANGE
- A SUPER STRETCH OFFER TO GO FURTHER IN COMFORT
- FAIRTRADE CERTIFIED
- BLUESIGN ® CERTIFIED FABRICS
- A DESIGN ALIGNED TO THE MARKET NEEDS WITH PICTURE DNA
- ECO WETSUIT AT THE SAME PRICE OF NON-ECO WETSUIT

FLEXSKIN TECHNOLOGY



Flex Skin

- 4 WAY STRETCH
- SECOND SKIN EFFECT
- SUSTAINABLE FABRIC

Flexskin is an eco-friendly and extremely stretch neoprene that allows full freedom of movement while surfing by being highly flexible around the arms, shoulders and upper-body.

This material is subject to minor cosmetic variations from regular use that will not affect the functionalityor performance of the wetsuit. Avoid contact with hook & loop.

TECH INDEX

CORDURA®:
Cordura® fabric is a collection of fabrics qualified by INVISTA for use in a wide array of products from luggage and backpacks to boots, military wear and performance apparel.

COREMAX LINING:
Recycled polyester micro-fleece panels integrated in the next-to-skin lining to offer extra warmth and breathability where you

DRY NOW:
High-performance technology using a recycled polyester blend of hydrophilic and hydrophobic fibers that wicks moisture away from the skin and pushes it to the outside where it can evaporate quickly.

DRYPLAY:
This polyurethane (pu) blend laminate membrane is waterproof, windproof, and breathable.
Extremely durable, it keeps the user dry in all weather conditions. Laboratory and field tested.

DRY FEEL:
Our new antimicrobial and anti-odor treatment that keeps your base layers as fresh as it was new for more active days. It also means less frequent washing and longer lasting clothes!

EICOPRENE:
Eicoprene is a foam material that has the same technical features and profile as conventional neoprene. However, there is nothing conventional about the origins of this new material.
Whereas neoprene is petroleum-based, Eicoprene is made from a mix of limestone (70%) and recycled tires (30%).

POLARTEC® POWER STRETCH®:
Made with 84% recycled fibers and developed to expand our base fabric's durability and range of motion. By using elastic fibers with enhanced resilience in our stretch construction, we made a performance-fit base fabric that can handle the demands of intense physical activity. It also keeps you dry when you sweat and provides warmth.

POLARTEC® THERMAL PRO®:
Made with 75% recycled fibers and designed using new, innovative knitting techniques. The ability to regulate core temperature for maximum comfort is provided by thermal air pockets that trap heat without restricting breathability. Minimizing the mass through open air channels also drastically reduces fabric weight and increases compressibility for better packing and storage.

PRIMALOFT:
The world's best synthetic insulation alternative. PrimaLoft® insulation is soft, water resistant, warm without bulk, breathable, lightweight, and packable. At Picture we use PrimaLoft ® insulation ECO with 60% post-consumer recycled content.

RECOVERY LINING:
Technical linings made with discarded scraps, cuttings, and other untreated fabrics (that meet Picture's quality standards) from factories. An eco-friendly alternative to burning this waste.

TEFLON ECOELITE:
PFC-Free durable water repellent treatment using renewably sourced Teflon EcoElite ™ Technology. Zero pollution, zero allergies, zero impact on future generations. Guaranteed 90% efficiency after 10 washes.

THERMAL DRY SYSTEM:
Made with recycled polyester (PE), Thermal Dry is a knit fabric used as a lining to keep you warm and dry when active. It features a unique body mapping construction, placed where the body sweats the most, that wicks moisture away.

THERMAL STD:
Made with thin recycled polyester fibers, our Thermal Std insulation provides warmth similar to down, but retains heat more effectively when it gets wet. It is lightweight and dries quickly. The heavier the weight in grams, the warmer the insulation.

PERTEX:
Picture partners with best-in-class tech partner to develop a high-end insulated layer range.Pertex® quantum uses a tightly woven structure to provide a light and soft fabric that allows insulation to fully loft. Precisely constructed from incredibly fine yarns, pertex® quantum fabrics are designed to trap still air and improve the efficiency of insulation.

RDS:
The textile industry has become increasingly aware of its sourcing challenges. In particular the use of animal products such as feather and down and, with the development of the Responsible Down Standard (RDS), a leading standard for animal welfare in down and feather products has been created.
The scope of the RDS includes the full down supply chain from the farms and slaughter facilities (animal welfare) to the down processors and garment factories (traceability).

XPORE:
Xpore by BenQ is a revolutionary sustainable & high performance nano-porous membrane. 100% PFC free and solvent free, the Xpore membrane offers the best eco-friendly alternative to the actual membrane market leaders, while having superior performance indicators : min. 25K waterproofness & min. 20K breathability (test method JIS L1099 B1). It is also ultra lightweight being two times lighter than the competition.
Xpore is a true eco revolution in high tech membranes and is featured in the Demain Jacket and Pant.

THE CIRCULAR_

Nothing is lost,
Nothing is created,
Everything is transformed.

From Biosource to The Circular_technology ?
_Part of our never-ending sustainable product innovation policy
_Use existing waste within our own industry
_The Circular Process emits twice less CO2 emissions than Biosource

Where does the waste come from?
_ 40% Post consumer (used garments)
_ 60% Pre consumer (factory cutting scraps)

Does it offer the same level of technicity?
_ Yes, it is a new yarn for a new tech fabric
_ Same level of certifications

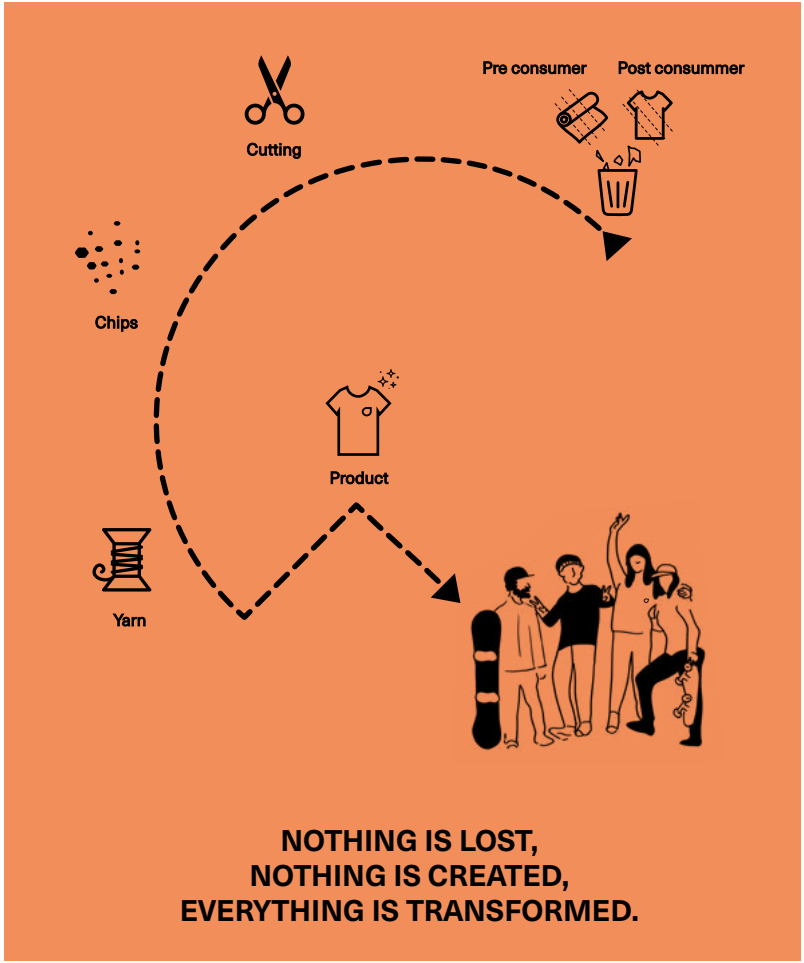
Global Recycled Standard

CONFIDENCE IN TEXTILES Tested for harmful substances according to Oeko-Tex Standard 100

greenfiber

Intertek

What are The Circular_products?
_SS23 Technical pieces
_FW23 80% of the outerwear + layering + Activewear Jackets



Tencel™

Feels so right

An incomparable natural feel

Tencel fibers are known for their natural comfort and environmentally-friendly production process, as well as for their moisture management and being gentle to the skin.

Sustainable production

Environmentally responsible closed loop production process, transforms wood pulp into cellulosic fibers with high resource efficiency and low ecological impact.

Feels right features

Color retention
Dope-dyed fiber: long-lasting color vibrancy more than conventionally dyed fiber, and less prone to fade.

Enhanced breathability
The microscopic fibrils of cellulosic fibers are structured to regulate the absorption and release of moisture.

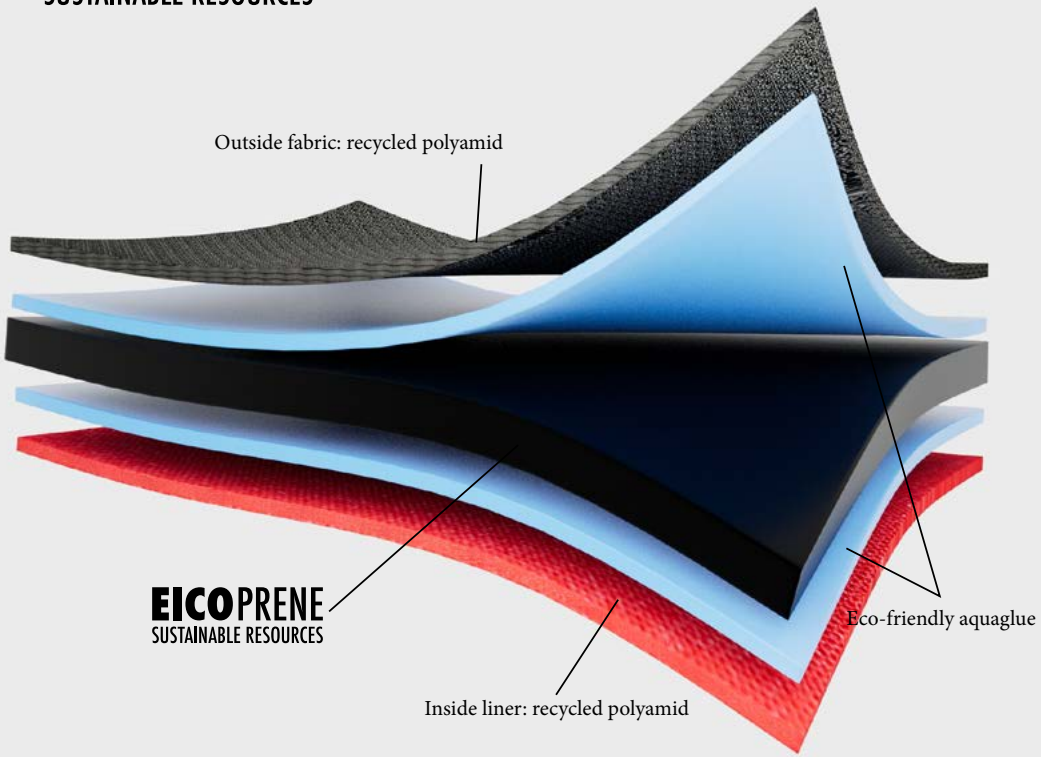
Feels cool and dry
Absorbs moisture more efficiently than cotton. keeping your skin feeling pleasantly cool and dry.

Long-lasting softness
Offer textiles a long-lasting quality of exquisite softness.

Strength
Greater strengh among cellulose fibers.

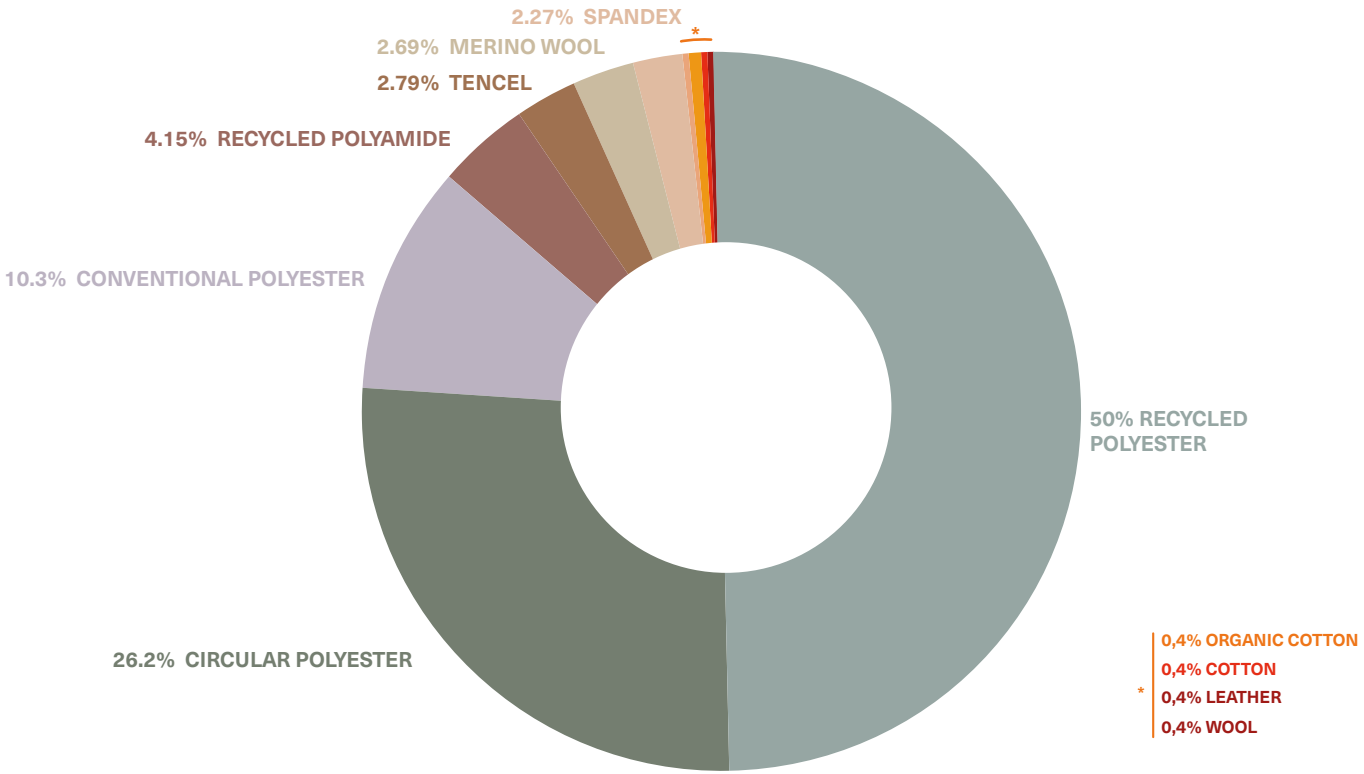
WETSUIT:

EICOPRENE
SUSTAINABLE RESOURCES



- No neoprene
- No harmful chemicals
- No solvents
  AQUAα^{+}
- Stretch
- Warmth
- Durability

WHAT MATERIALS DO WE USE IN FW23/24 ? (TECHNICAL PRODUCTS)



CERTIFICATIONS, LABELS, MEMBERSHIPS

COMPANY LEVEL	PRODUCT LEVEL	WORKER LEVEL
Certified B Corporation	Global Recycled Standard bluesign APPROVED FABRIC AVITERA SE ORGANIC BLENDED content standard ORGANIC 100 content standard ECONYL ENDLESS POSSIBILITIES REPREVE CONFIDENCE IN TEXTILES Tested for harmful substances according to Oeko-Tex Standard 100 Teflon EcoElite EcoVero Tencel	FAIR WEAR I made your clothes

GREEN CERTIFICATIONS

AVITERA SE
Dyeing organic cotton with Avitera SE dyes leads to
- Environment benefits: water and energy savings (50%), Reduced CO2 emission (50%)
- Consumer benefits: helps colors stay bright and dark shade stay dark , substrates dyed with AVITERA® show no trace of PCA (Para-Chloro Aniline)

BLUESIGN APPROVED FABRIC
Bluesign technologies works at each step in the textile supply chain to approve chemicals, processes, materials and products that are safe for the environment, safe for workers, and safe for the end customer.

ECO VERO™
Derived from certified renewable wood sources using an eco-responsible production process by meeting high environmental standards, LENZING™ ECOVERO™ fibers tailor to a sustainable lifestyle, contributing to a cleaner environment.
LENZING™ ECOVERO™ Viscose fibers key facts : Sustainable wood sourcing / Awarded EU Ecolabel / Lower emissions / Supply chain transparency

OEKO-TEX STANDARD 100
If a textile article carries the STANDARD 100 label, you can be certain that every component of this article (every thread, button and other accessories) has been tested for harmful substances and that the article therefore is harmless for human health.

GLOBAL RECYCLED STANDARD
The Global Recycled Standard provides verification of recycled materials, and then tracks the materials throughout the entire supply chain and to the finished product. It includes additional social, environmental, and chemical processing requirements.

TEFLON ECOELITE™ / PFC FREE DURABLE WATER REPELLENT TREATMENT
Teflon EcoElite™ is a renewably sourced, non-fluorinated (PFC-free) fabric treatment for durable water repellency and is manufactured with 60% renewably sourced raw materials.

SUSTAINABLE FABRICS AND PROCESSES

RECYCLED POLYESTER :
Recycled polyester has much lower impacts than virgin polyester:
it requires 6 times less oil and emits 2.5 times less greenhouse gases than conventional polyester.
Source : Quantis

TENCEL™:
TENCEL™ branded fibers offer a range of features including botanic origin, sustainable production, gentleness of skin, long-lasting softness, silky smoothness, enhanced breathability, color retention and biodegradability. TENCEL™ fibers are produced by environmentally responsible processes from the sustainably sourced natural raw material wood (FSC certified).
